

XS-MSU PRO

MOBILE SURVEILLANCE PLATFORM

Intelligent security.
Built for **critical infrastructure**.

Solar-powered, AI-driven surveillance engineered for autonomous operation in demanding environments. Deploy quickly, monitor remotely, and deter threats in real time.

BENEFITS

- Advanced AI-powered live video monitoring
- Faster incident detection and response
- Proven visible crime deterrence
- Reliable off-grid security
- Lower guard and operating costs
- Rapid deployment with strong ROI

IDEAL FOR

- Construction sites
- Data centers
- Schools & universities
- Shopping & retail centers
- Oil & Gas/ Industrial Sites

ADVANCED TECHNOLOGIES

- AI video analytics
- 24/7 remote monitoring
- License plate recognition
- Incident reporting
- Equipment health monitoring
- Cloud-based reporting

XS-MSU PRO

MOBILE SURVEILLANCE PLATFORM

SIZE & PLATFORM

SIZE & WEIGHT

22'H x 10'L x 80"W

Designed for autonomous, solar-powered field operation.

ENTERPRISE SPECIFICATIONS

CAMERA SUPPORT

HD, PTZ, Thermal and Multi-Sensor cameras

LICENSE PLATE RECOGNITION

Vehicle identification and capture

INCIDENT REPORTING

Structured event documentation and review

LOW-LIGHT PERFORMANCE

Optimized monitoring in challenging light

AVAILABLE CONFIGURATIONS

- Multiple camera options
- High-efficiency LED lights
- Two-way audio
- Cloud-based reporting

XENERGYSECURITY.COM

MSU MINI

MOBILE SURVEILLANCE PLATFORM

Keep an eye on your property,
easily and economically

Compact, plug-and-play security system with built-in storage, connectivity, and monitoring hardware. Portable and easy to install, it supports Ethernet, Wi-Fi, solar power, remote access, and local recording delivering powerful surveillance in a smaller, economical package.

BENEFITS

- Small Form Factor
- Economical
- Self-Contained
- Customizable
- Solar Option
- Two-Way Audio
- Video Indexing for Forensic Playback
- Strobe Lights and Siren
- Multiple Detection Zones

IDEAL FOR

- Construction sites
- Data centers
- Schools & universities
- Shopping & retail centers
- Oil & Gas/ Industrial Sites

ADVANCED TECHNOLOGIES

- Maintenance and Service
- System Health Check
- Video Monitoring/Video Review
- Artificial Intelligence (AI)
- Log Reports
- Advance Health Check Monitoring
- Project Dash (In-House FOV Review)

MSU MINI

MOBILE SURVEILLANCE PLATFORM

SIZE & PLATFORM

Dimensions: 16"W x 17"H x 10"D

Weight: 20lbs

Weather Tight Enclosure

ENTERPRISE SPECIFICATIONS

VIDEO QUALITY

Full HD 1080p video up to 4K with Smart Codec

ADVANCED IMAGING

120dB WDR, 3D DNR, Defog & Electronic Image Stabilization

SMART CAMERA CONTROL

Dual streams with Smart-Focus motorized VF lens

STORAGE & DETECTION

Up to 2TB onboard storage with intrusion detection & Smart VQD

AVAILABLE CONFIGURATIONS

- HD real-time video
- IR LEDs (up to 30m)
- DWDR & 3D DNR & BLC
- Vari-focal lens
- On-board storage up to 2TB
